Erasmus+ Programme
of the European Union

UNIVERSITÉ DU
LUXEMBOURG

General Presentation Of the Outcomes of the STARS Project

Skills Transfers in Academia

A Renewed Strategy (it is about legal anatomy)

A Renewed Strategy

#clinicaleducationmakespeoplehappy

The project's “deliverables”

- Standards encompassing the best practices of legal clinics of partner Universities.
- Establishment of a website providing a repository of pedagogical materials used by the STARS partners' legal clinics as well as any information regarding clinical education and research related to it.
- Database of cases dealt with by the project's legal clinics
- Summer and Winter Clinics in Brescia (2018), Luxembourg (2019) and Olomouc (CoVID-19); Winter School in Rome (2020).
- Establishment of a legal clinic at the Romanian-American University of Bucharest.

Our objectives

- ***Ubi societas, ibi ius***
- Lawyers are naturally brought to understand and work in their communities but still lack the appropriate methodologies to reach out and provide this kind of services.
- **How can we help you?**

- We formalized existing clinical legal teaching methods in our pedagogical material accessible online and through the establishment of evaluation criteria of legal clinical teaching.
- We provide you guidelines and best practices that can easily be replicated
- <http://www.lawstars.eu/>

- Legal clinics expose students to new business management skills in the field of legal services, contributing to a change of behaviour in the legal professions through exchange of ideas with successful legal entrepreneurs and professional trainers from the universities.
- **Would you like to do it?**

Yes you can! We will help.

- We operate in the frame of a benchmark of quality that was elaborated during the the project and that **you can refer to** should you wish to.

⇒ **STARS standards on Clinical education**

- Our standards were elaborated in the frame of our project they are based on our own practice guided by the assistance of our partners: ENCLE, national bar associations, consumers organizations and ADR entities.
- Best practices were exchanged during our Summer/Winter Schools

Roma Tre Winter School 2020

- We share with you our reflections on the cases that were submitted to our clinics:

**=> Database on cases we dealt with
(available on our website)**

Beyond the STARS project

Our ambition is to further develop the European clinical culture that was established through this project by developing of social responsibility, empathy and interpersonal skills, helping to establish and to twin more clinics.

Clinics should also have a place of active transdisciplinary and interdisciplinary collaboration between full law professors, young researchers and practitioners related to the clinical programme.

Clinics should not be only operating on a practical level but be organised as law laboratories, where both applied and fundamental research should be conducted.

- Clinics, like stars, must shine in Academia.
- We are looking forward to welcoming new starts in our network!
